## Bachelor of Arts/Bachelor of Fine Arts Fine Arts

Art offers us a way to connect with the past, gives us glimpses into the future and allows us to see our present moment reflected back through many voices, eyes and hands.

At Nipissing, we believe practicing and studying art deepens our understanding of ourselves and the complexities of the world we live in.

Our courses in Studio Art, Art History and Visual Studies, and Film engage students in meaningful research, practice and study that will develop their knowledge and skills, as well as their critical and creative potential.

Our student-centered approach and small faculty-to-student ratios provide students with key interactions and experiences that enrich their learning and help them succeed.

Studio courses in painting, drawing, printmaking, sculpture, photography, video and time-based media offer a balance of traditional practices and contemporary approaches, while combining technical skill with conceptual development.

Art History and Visual Studies and Film courses cover a wide range of topics, issues, time periods and genres. These courses develop critical and interdisciplinary frameworks to question how the fields of visual and material culture relate to disparate social contexts that shape our lives.
