# NU Monthly Safety Newsletter

**June 2024** 

### Rights of workers

- 1. The right to know about health and safety matters.
- The right to participate in decisions that could affect their health and safety.
- 3. The right to refuse work that could affect their health and safety and that of others.

# First Aid & AED. The importance of a First Aid Kits and AED:

- The Health and Safety board posts all first aid designates names and their extensions.
- Become familiar on where AED and First Aid kits are located.
- Make sure to report all Injuries to you supervisor.

## Here are some types of first aid kits:

- Vehicle First Aid Kit: for use in cars, trucks, buses, etc.
- Individual First Aid Kit (IFAK): for personal use in case of emergencies.
- Trauma Kit (Bleeding Control): for stopping, severe bleeding from wounds.
- Burn Kit: for treating burns and scalds.
- Fracture Kit: for immobilizing and supporting broken bones.

#### **First Aid Kits**

In a world where accidents happen unexpectedly, having a well-stocked and properly maintained first aid kit is crucial. Whether it's for your home, workplace, or on-the-go, routinely. Inspecting your first aid kit ensures that it's always ready for emergencies.
