

Meet your consultant

Amanda

International Consultant

As a dedicated International Consultant, I specialize in attracting qualified international teachers from various countries for opportunities in UK schools.

My experience:

- I relocated to the UK from Sweden in 2022. I bring several years of experience in social work to my current role as an international consultant. I have previously worked closely with teachers, which has formed a great understanding of their needs.
- I pride myself on building strong relationships with schools and connecting teachers with opportunities.
- I dedicate my time to fully understanding the needs of both schools and candidates. I carry a deep focus on the candidates and highlight their professional goals and strengths. My goal is to see all of my candidates in roles where they can truly thrive.
- Join me in finding your ideal role to make an impact abroad!

I work with:

- Overseas Trained Teachers
- SEND Teachers
- Primary Teachers
- Secondary Teachers
- Teaching Assistants
