GRANT BUDGETING: QUICK GUIDE BUDGET CHECKLIST

Big picture Proportion: The relative amounts of each expense category (e.g. wages, travel) are appropriate for your project ✓ When possible, salaries/stipends for trainees should be a significant portion of the budget Community research should have budget lines to recognize community participation (e.g., honoraria, hospitality) Order: Justification follows the categories & order of budget table and is easy to calculate and compare to table Breakdown: Showing your calculations demonstrates that your totals are reasonable and based on typical values e.g., Canadian conference costs include \$800 airfare, \$600 lodging (\$200*3 nights), \$450 registration, etc. Personnel NU students: Every attempt has been made to involve NU students and engage them in the research process Stipends: Use stipends for students, which allows you to round up to a more competitive compensation rate Salaries: If using salaries, use the rates below + 11% benefits + a 3% increase each year (exception: postdocs) **Expenses**: Any travel & subsistence expenses connected to trainee's work should be captured in the Travel section **Postdocs** may be included as a PI/CI or be paid as staff in the grant budget, but not both. Travel Types of travel: Travel for research and travel for communication (e.g., conferences) are clearly distinguished **Conferences**: Schedule conferences to share research *after* Y1; include names of conferences International travel: Consider including travel/medical insurance, especially for travel for research Other Professional/technical services: Specify who will be performing any professional services (e.g., translation) Knowledge translation: Include open access fees for article publications & budget for other ways to share your work For SSHRC: 'Other' items have been listed in a table, including costs and item #s Software: Don't include software for which NU already has institutional licenses (e.g., SPSS, Qualtrics)

AGENCY-SPECIFIC GUIDELINES

	Tri-Agency	CFI	Other agencies	Industry contracts
Overhead	0%	0%	25% (if unspecified)	40%
Fringe benefits for salaries	Add 11%	Add 11%	Add 11%	Add 11%
