

# Meet your consultant

## Bronte

### International Consultant

I specialise in connecting educators with opportunities in the UK, making the relocation process seamless and supporting them every step of the way."

### My experience:

- I relocated from Australia to the UK in 2025. I travelled through Europe before settling down in London. This experience has given me first-hand insight into the relocation process, which I now draw on to support educators making the same transition.
- I bring eight years of management experience, during which I have developed strong leadership, communication, and people-focused skills.
- I pride myself on being genuine and passionate in everything I do, with a particular commitment to helping others reach their goals. Supporting individuals to succeed, whether in their careers, personal growth, or transitions such as relocating has always been at the heart of my approach!

### I work with:

- Qualified Teachers
- Teaching Assistants
- SEND Teachers
- Primary Teachers
- Secondary Teachers
- Nursery Assistants
